MACHINE PREDICTIONS AND SYNTHETIC TEXT:

A Roundtable on Large Language Models in the Humanities

TUESDAY OCTOBER 26 4:30-6 P.M.

Co-authors of "On the Dangers of Stochastic Parrots: Can Language Models Be Too Big?" will speak with three leading digital humanities scholars about the implications of the article for humanities research employing NLP methods. Together, they will discuss how the authors' attention to process (data gathering, documentation, standards) and ethics in AI can be turned to humanists creating data and models for the study of literature, history, and culture.

PANELISTS
Angelina McMillan-Major
University of Washington

Gimena del Rio Riande
University of Buenos Aires
Lauren Klein
Emory University

Margaret Mitchell
CEO & Research Scientist, Ethical AI LLC

Ted Underwood
University of Illinois, Urbana-Champaign

MODERATOR
Toma Tasovac
DARIAH-EU
